**You have been chosen to become a part of our Space Force cadet program because we believe you have what it takes to put a stop to these troublemakers!**

**If you are ready then lets get started. We have a new mission that we need your help with!**

**Good luck! The galaxy is counting on you!**

Space Force Captain

# Mission Brief:

## Location:

**Planet Fortuna - Home to over 3 Billion Fortunas.**

## The Case:

**We have received reports from our forward operating base on Fortuna that someone has been swapping house numbers on peoples front doors. This is causing peoples to get the wrong postal deliveries. It is believed that this is the work of Trouble Troopers who have discussed themselves as Fortunans.**

## Your Mission:

**Space Force Seargent SpaceWalker has been at the scene interviewing witnesses and gathering evidence. He has transmitted this to Space Force in code. We need your help unscrambling the code to see if we can identify who the Trouble Troopers are!**

## 1. Delivery Guy ALEX

Alex is the sneakiest prankster and we have never been able to prove he is responsible for any tricks so far. Alex has dark hair and wears glasses. Alex Has an identical twin brother, Andrew, who is also a Space Force cadet.

## 2. Tech Expert AMY

Amy is the most creative prankster and is usually responsible for the craziest tricks. Amy is very tall, with blonde hair. She likes to wear hats and dark glasses to hide her face. She is often seen carrying a backpack.

## 3. Shop Keeper MARK

Mark is simply unable to stay out of trouble and is always playing pranks. Mark is constantly changing his hair colour to stay undetected and he always has a book to hide his face. Mark has a twin brother who is an historian with a special interest in historical mischief pranks!

## 4. Dancer BEC

Bec is one of the most notorious mischief makers we have ever encountered. To this day we don't have a clear profile, we only know that she is always wearing red. There have been reports that she often has an umbrella with her to hide her face, even if it's not raining.
